UNDERGRADUATE LECTURE ANNOUNCEMENT

Introduction to Mathematical Finance

Associate Professor Jin Zhang
School of Economics and Finance
University of Hong Kong

Date: 23 August 2010 (Monday)
Time: 10 am – 11 am
Venue: MAS Executive Classroom 1, MAS-03-06
School of Physical and Mathematical Sciences

Topics include the relationship between mathematics and finance, the role of mathematical finance in financial industry and possible academic career in finance for undergraduate students in mathematics.

Speaker Biography

Dr. Jin Zhang is an Associate Professor in School of Economics and Finance in the University of Hong Kong. He received a PhD in Engineering Science from California Institute of Technology and specialized in Fluid Mechanics and Partial Differential Equations (PDEs). After working in Morgan Stanley & Co. in New York for a year, he started his academic career in finance department in Business School. During the last 13 years, he has been teaching and doing research in finance and had 20 papers published or accepted in the area of Quantitative Finance. He also did some research in the integrability and analytical solutions of nonlinear PDEs, and had 19 papers published in the area of Mathematical Physics.

Host: Prof. Chee Yeow Meng, Head, Division of Mathematical Sciences, School of Physical and Mathematical Sciences
