My heartiest congratulations to the SPMS graduating class of 2017! This is a moment to celebrate the perseverance, courage, ambition, and intelligence that got you here. I am proud of the accomplishments of all of you. But I think you will agree with me that the greatest lesson of all during your university life at NTU is the learning of yourself – your strengths, your weaknesses, your dreams, your fears, your relationships, your independence. You will benefit from remembering this lesson.

Finally, I want to thank you for choosing SPMS. With that choice, you have also transformed us into something better.

I wish you all the best in your endeavours, and good luck!

Prof Chee Yeow Meng
Chair of SPMS
Dear Class of 2017,

Congratulations on your graduation! You have accomplished an important achievement.

I wish you a successful career ahead and hope that the learning experience that you have gained from SPMS will be helpful in your life.

Please keep in touch. You are always welcomed back.

Prof Phan Anh Tuan
HOD for PAP

I hope your undergraduate years in CBC were a well-spent and meaningful period of your life and I’m sure you will leave CBC with many fond memories of your time in the lecture halls and research laboratories.

Graduation is one of the major milestones in your life and the best is yet to be!

Please feel free to visit NTU campus anytime and see us occasionally!!

Prof Chiba Shunsuke
HOD for CBC

My heartiest congratulations to the class of 2017.

To the graduates from MAS, it was my pleasure teaching you during your first two years at NTU and I would like to thank you for the wonderful moments and memories you have given me.

In your new journey after graduation, you may be met with opportunities and struggles. Take them in your stride and persevere with an enduring spirit, just like how you have always handled difficult math problems. At the end of the day, you can only grow stronger and better when you approach life with the right attitude.

I hope our paths will cross again someday and you will all find success in your various spheres of influence. Once again, congratulations. You have made all of us proud.
